- Managed a team of 20 people for maintaining the database of students coming to the college for the national tech fest.
- Worked on MS Access and established LAN networks.

Education

Concordia University,
Montreal, Quebec, Canada
Master of Applied Computer
Science (Current CGPA
3.78/4.3)

Sardar Vallabhbhai Patel
Institute of Technology, *Anand,*
Gujarat, India
Bachelor of Engineering –
Computer Engineering (CGPA
8.83/10)

Projects

Voice Controlled News App

A React based news application built with Alan AI API to retrieve news articles from various news channels.

Google Clone

Clone of Google Search Engine using Google Custom Search API.

Gym Website

A gym website UI made with React and Framer Motion.

Self-driving Car with Behavioral Cloning

A machine learning project by which human sub cognitive skills can be captured and reproduced in a computer program and used in real world for developing autonomous vehicles.

Waves Music

A web-based music player app made with React JS
